## Display Setting Instructions Rock Board Modular Display

1. Remove all M6 x 30mm button head screws and remove the front housing.

2. Apply the supplied segment blanking stickers to create the desired number display 0-9.

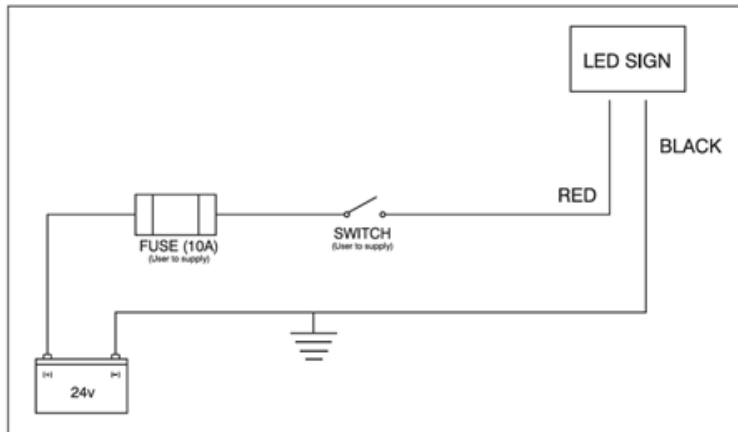

3. Replace the front housing and tighten all M6 x 30mm button head screws.

**Torque setting for M6 x 30: 3.5Nm**

Your Rock Board LED ID Sign is now ready to fit to your vehicle.

**Ensure segment blanks are firmly pressed into position, are sitting flat and cover all of the yellow segment prior to replacing the front housing.**
